

Paul Barnes
Cloud Accounting Support Services Limited.

22nd November 2022

I started my practice in April 2020 and required a Xero expert to assist with my clients. I was introduced to Paul Barnes and immediately I realised how passionate Paul was to assist clients in moving them onto the cloud.

I have some Xero experience but “nowhere near” to the knowledge Paul and his team at Cloud Accounting Support Services Limited. My aim was that all my clients would be using cloud based software and Paul was to assist in implementing my plan.

Paul has migrated the majority of my clients to Xero and this has made my life alot easier to provide my clients with the service I wish to give and to offer other non-compliance services.

Paul and his team make the migration so much easier and my client is made aware of the process involved, the upfront cost and training requirement to use Xero, effectively.

My clients have commented on how easy the process was to migrate to Xero, the way it has changed their working life, making transactions easier to post and reconcile. Some clients cannot believe the change it has made to them and their business. Now they can review the trading performance of their business in real time.

I have no hesitation in recommending Paul and the team at Cloud Accounting Support Services. They do exactly what they say on the tin.

I look forward to a long term continuation in working with Paul and the team at Accounting Support Services.

A big thank you to Paul and his team.

Kind regards,
Andy Horvath.
